ABOUT US

We are from Paraguay, in central South America, an agro-exporting country in constant growth, and with one of the most stable economies in the region and proud to be able to produce medicines for the whole world.

We are a group of medicine production plants with pharmaceutical forms, created to meet international needs with high quality medicines and regulated by the most demanding certifications. We have extensive marketing experience in more than 40 countries.

We are made up of companies that not only complement the production lines, but also generate synergy, and in this way, we manage to fulfill orders from different international markets in the shortest time possible.

The group of medicine production plants, leaders in technology and innovation, that make up Farmavone are:

Laboratorios
CATEDRAL

ETICOS

 **LABORATORIOS
GALENO S.A.**

**SWISS
PHARMA**

Laboratorios **CATEDRAL**

With more than 118 years of experience, leader in the Paraguayan pharmaceutical industry. The laboratory is dedicated to the production of oral solids, injectables, non-sterile liquids, semi-solids and Beta-lactams. In a 37,000 m2 plant and with more than 500 employees..

Innovative and high-tech, dedicated to the production of sterile medicines: liquid and lyophilized injectables in vials, nebulizing and ophthalmic solutions, liquids, multi dose and single dose. Non-sterile: oral solids, oral liquids, inhaled powders in capsules.

It has international certifications, Good Manufacturing Practices (GMP) from INVIMA Colombia, DIGEMID Peru, in addition to local certifications.

It produces medicines in solid, oral, and oral liquid pharmaceutical forms, and unlike other laboratories, it produces natural products, phytotherapeutics and oils, an important differential that completes the lines we offer.

Leader in innovation, technology and quality, the only soft gelatin capsule manufacturing plant in Paraguay, and one of the few in South America, which allows the group to offer more than 40 products including medicines and dietary supplements in soft capsules and vaginal ovules in teardrop shape..

What allows us to satisfy the needs of our clients in a timely manner, fulfilling purchase orders in less than 60 days is thanks to the following companies that provide supplies and services:

It is the only glass ampoule production plant in the country, with the capacity to produce more than 6 million units monthly, with a wide range of size, color and printing options, satisfying the needs of all the group's laboratories and international third parties.

It is the group's printing company, it is equipped to provide immediate response to the different laboratories, with the printing and die-cutting of boxes, leaflets and everything related to printing needs, having a very important printing capacity and quality with modern machinery, and updated of the highest quality.

It is a production plant for primary plastic packaging for the pharmaceutical industry. Produces high- and low-density polyethylene blown injection bottles, as well as caps, inserts, droppers, dispensers, rectal cannulas, triggers, syringes, dosing pumps and PET bottles.

VISCOUNT
PLASTICOS

This company is dedicated to group logistics, with more than 5,000 logistics positions. This company can manage a large volume of products, which makes it the largest pharmaceutical distributor in the country. This logistics capacity is essential to guarantee the efficient and timely distribution of pharmaceutical products throughout the country.

WHY CHOOSE US?

COSTS AND TIMES

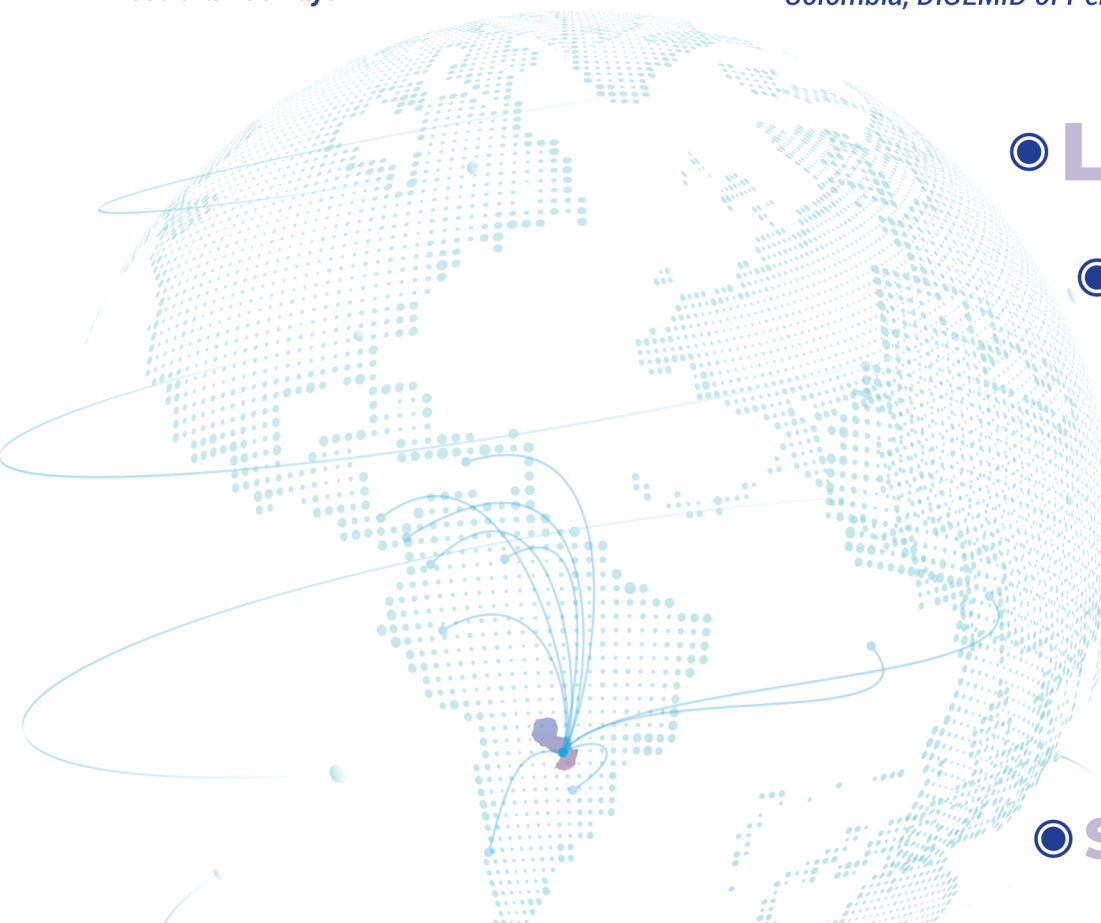

We are a complex network of high-tech companies in the production of Pharmaceutical Products, made up of companies that not only complement the production lines, but also generate synergy, and in this way, manage to fulfill orders from the different international markets in the shortest time possible, achieving with this union of companies the possibility of fulfilling our purchase orders **in less than 60 days**.

LEADERSHIP AND EXPERIENCE

With more than 118 years of experience, we are leaders in the Paraguayan pharmaceutical industry, recognized for our high technologies and the most equipped and demanding quality control departments. We produce a wide variety of pharmaceutical forms and with local and international certifications, such as **Good Manufacturing Practices (GMP), INVIMA Colombia, DIGEMID of Peru**.

SUPPORT AND FLEXIBILITY

We provide our clients with comprehensive support in the marketing of products through an exclusive **Farmavone Marketing Team**. In addition to the training and training of our partners and their commercial team worldwide, provided by our medical advice professionals virtually or in person, and everything that comes with the documentation and registration of a product in each country, we provide you with a **100% support** from the **Farmavone Regulatory Affairs** team.
